

Philippines Take Up Leper Treatment and Chaulmoogra Cure

(ASSOCIATED PRESS)
MANILA, P. I., Dec. 6.—The extension of the ethyl-ester treatment to all lepers in the Philippine Islands is the chief problem engaging the attention of Dr. Victor G. Heiser, chief of the Far Eastern section of the Rockefeller Foundation, who is making an investigation of health conditions in the archipelago for that organization.

Dr. Heiser has endeavored to ascertain the exact quantity of chaulmoogra oil in the Philippine Islands and is also looking into the possibility of obtaining a sufficient supply to treat all of the 5,000 persons suffering from leprosy on Cullion Island, where the lepers of the Philippine group are confined.

"General Leonard Wood, governor general of the Philippines has made up his mind that all of the lepers at the colony shall receive the treatment, if it is possible," said Dr. Heiser. "He made this announcement in a public address recently. I am looking up the available supply of oil for this work, not only from the local standpoint but from a worldwide aspect. It is possible that the raw material for the oil can be found in the Philippines, and if that should prove to be the case, the islands will have another important industry and might even supply the world."

"There are at present more than 1,000,000 lepers in the world, India alone has more than 300,000 and Japan about 50,000. Some of the South American countries also have large numbers. The treatment requires about 30 liters of oil per 1,000 patients a month, so that the possibilities of the chaulmoogra oil industry are apparent."

"The oil is extracted from a nut growing on the hydnocarpus tree, a variety of which is found on the island of Mindanao. We do not know, however, whether the Philippine tree yields the kind of oil that has the proper medical properties for the successful treatment of leprosy. That will have to be determined by a thorough analysis which only a high class chemist can perform."

A shipment of some 700 pounds or about 300 liters of chaulmoogra oil left Calcutta for Manila a few days ago. Cablegrams also have been sent to various parts of the world in an attempt to obtain a sufficient supply for giving treatment to all the lepers at Cullion. Among the lepers confined at Cullion are five former American soldiers. They have not been included in the 300 or 400 hundred who are receiving the chaulmoogra oil treatment, but with the meager pension which one of the ex-soldiers draws from the United States government, the five are able to buy a small amount of medicine and has thus obtain infrequent treatment.

Currency Collapse Hits Austria Hard

(ASSOCIATED PRESS)

VIENNA, Nov. 1.—With the collapse in the exchange value of the kronen, Austria is undergoing another economic and financial spasm. Since July 16 the crown has dropped from 650 to the American dollar to about 3,000. The 100 crown note, whose pre-war value was \$20 is now about the minimum unit of daily use, and 10,000 crown notes cannot be printed fast enough to meet the needs of business.

For the last month month the government presses have been printing some 5,000,000,000 kronen a week to meet current expenses. The issue will have to be increased to meet the demands of the great army of civil servants for a living wage. Within a month they have received increases amounting to about 5,000,000,000 kronen and already, with steadily falling exchange and the equally steady advance in living costs, they are formulating new demands.

The same is true of private business. In every class of industry and wage earning employers are being forced to raise pay while prices of everything mount.

When the collapse of the currency set in so feverishly a few weeks ago, a swarm of alien buyers swept over the country. They bought everything they saw that had a value. Stores were stripped of stocks until the majority of merchants began to retire their goods or refuse to sell more than one article to a customer.

These foreign buyers were aided by natives in the general desire to get rid of Austrian money. The feeling was that anything was better than the crown.

The most serious feature of the situation however, is the alarming increase in food prices. The increase in wages has not been equal to this

rise and the result is much unrest among the poorer classes. Women have been storming the public markets, overturning stalls and in some cases beating marketmen. They have had public sympathy and the police have been very mild in their attempts to control these demonstrations.

In the height of the panic many articles of food disappeared magically from the shops to reappear at greatly enhanced prices. Tinned milk for instance jumped from 180 crowns to 256 and this article is a fair index of increased prices.

Tailors are demanding pay in pound sterling and refusing crowns. Jewelers ask for Swiss francs, despite the law forbidding business in foreign monies.

The collapse of the currency was foreseen by financial experts but none could suggest a means of averting it as long as the government is forced to buy foreign money at any prices in order to buy breadstuffs and coal.
